

MODULAR HEAD-TO-TOE SOLUTION

The PRO MAX is available with a complete selection of superior 3DEEP® RF fractional and non-fractional technologies treatment handpieces

ENDY**EYES**

ENDY**FACE**

ENDY**BODY**

Intensif MAX Microneedling 2x faster results

Targeted to treat acne scars, deep wrinkles, stretch marks and other conditions requiring fractional deep dermal heating.

MiniShaper MAX

Focused RF treatment for the jaw-line, submental, arms and knees.

FSR MAX

Specially designed for fractional skin resurfacing and treatment of skin roughness, hyperpigmentation, wrinkles and scars on both facial and body areas.

Shaper MAX

For superior body tightening, contouring and shaping treatments

iFine MAX

Specially designed for the treatment of wrinkles and lax skin on delicate skin tissue around the eyes and mouth

Contour MAX

Specially designed with innovative RF + Vacuum technology to provide the ultimate in body contouring and cellulite reduction treatments.

Small MAX

Specially designed for skin laxity treatment of smaller areas such as the cheeks, submental, décolleté and neck.

INFINITE POSSIBILITIES 4 TECHNOLOGIES IN ONE PLATFORM

The EndyMed PRO MAX uniquely bundles fractional and non-fractional technologies in one versatile system.

Focused RF

Energy is delivered deeper into the skin for unparalleled deep volumetric heating and clinically proven results.

3DEEP CORE TECHNOLOGY

The only RF technology utilizing 6 RF generators that work simultaneously, enabling complete phase control.

RF Microneedling

Experience the next generation of RF microneedle technology, now with double the speed for enhanced comfort and optimal results.

Vacuum-Assisted Technology

Modulated pulsed vacuum technology uniquely enables deeper heat penetration for superior results – without the need for a cooling system.

Fractional Skin Resurfacing

The only Applicator on the market with both Fractional Ablation & 3DEEP RF Heating.

Smooth scanning technology for absolute ablation control.

Ablation only effects the epidermal layer yet with superior volumetric heat penetration.

ENDYMED™ | PRO MAX
Superior RF Multi-Treatment Platform

POWER & PRECISION

The ENDYMED PRO MAX all-in-one treatment platform helps your practice grow with impressive ROI

ENDYMED | PRO MAX

Superior RF Multi-Treatment Platform

The NEW **100W** EndyMed PRO **MAX**, powered by superior, clinically validated 3DEEP® technology, offers aesthetic PRO **MAX**professionals a modular head-to-toe solution that grows with your practice. Our all-in-one treatment platform is flexible, upgradeable and generates up to 7x ROI! With 3DEEP® technology, safe and suitable for all skin types and tones, you can broaden your treatment offerings and increase revenue potential with shorter appointments and effective, versatile treatments.

Faster microneedling

The Intensif RF Microneedling, now **x2** as fast, speeds up the treatment process, enabling you to efficiently carry out treatments and have full control over patient outcomes.

Higher power levels

Take advantage of power levels up to **100W** to achieve broader coverage and reduce treatment times.

Thermal camera

The Thermal camera monitors heat levels during treatment, achieving uniform heat distribution and optimal temperatures quicker for enhanced results.

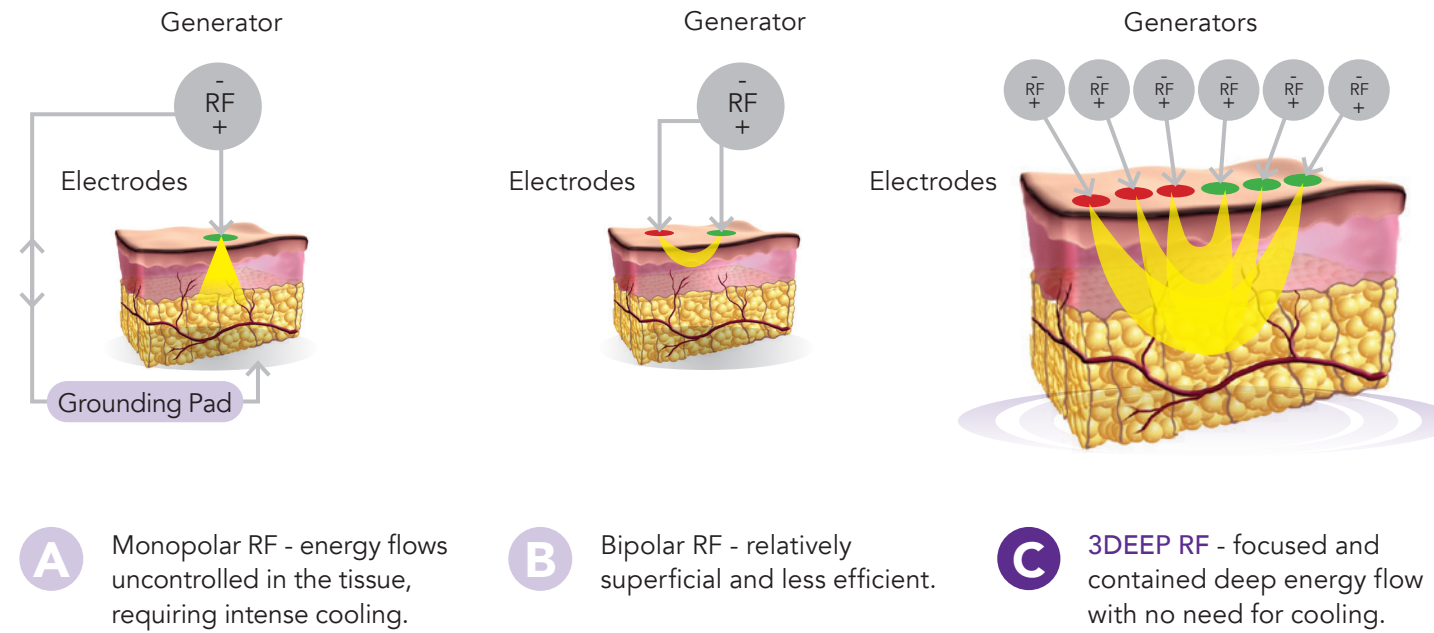

Versatile protocol choices

Choose from a variety of **new** treatment area protocols.

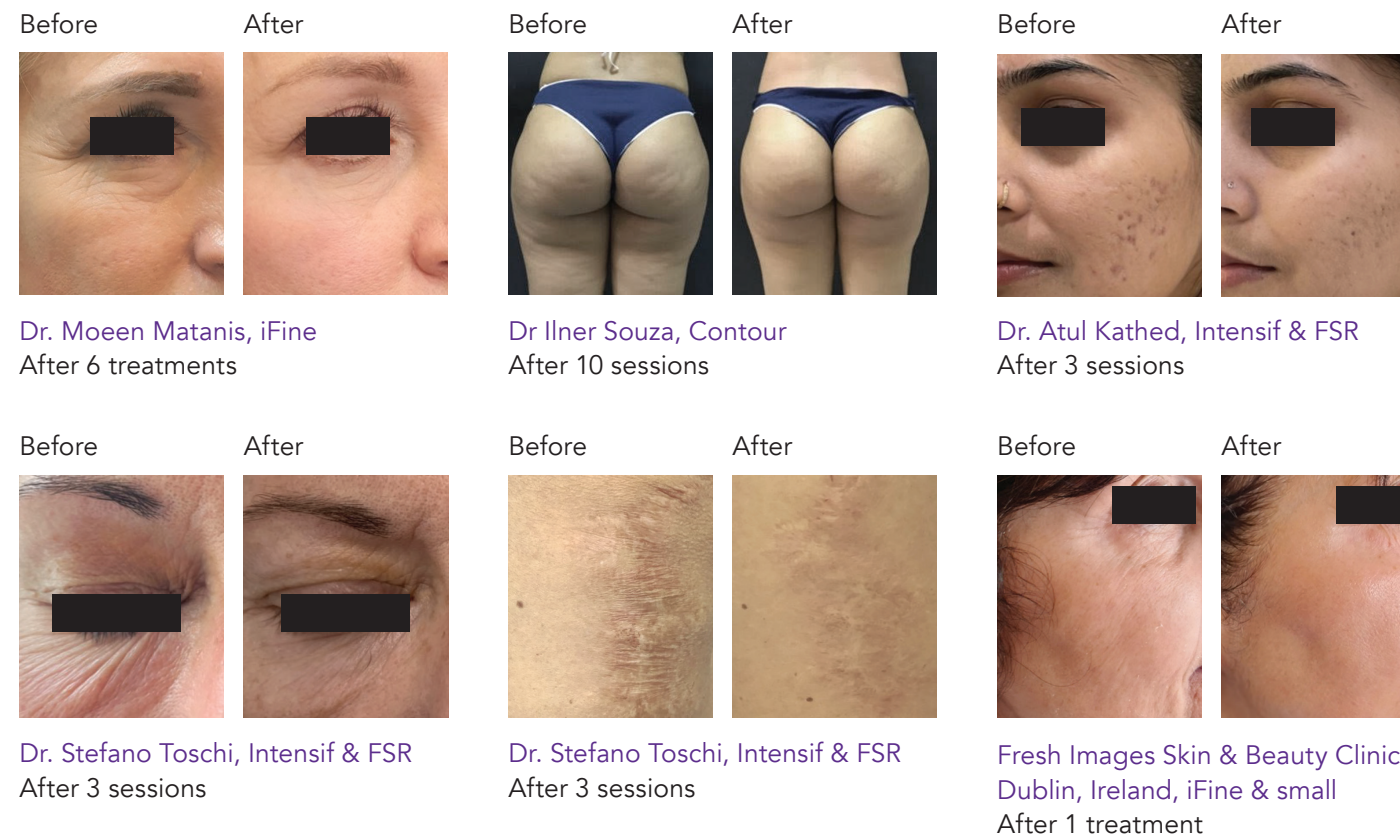

15-inch Intuitive GUI & new tutorials

Our intuitive, user-friendly GUI makes it easy to browse more settings and enhance your knowledge with advanced protocols and video tutorials.

ENDYMED 3DEEP® VS. RF COMPETITORS

CONFIDENCE IS 3DEEP®

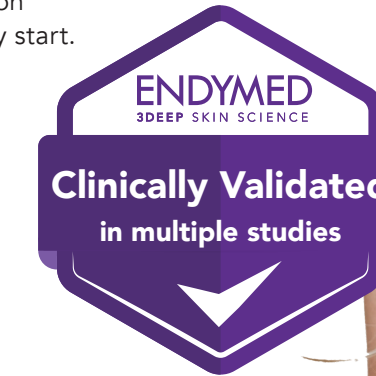

THE ENDYMED DIFFERENCE

A premium brand: ENDYMED Medical is a worldwide-recognized brand with an extensive global presence.

Our partnership advantage: Exceptional service, flexible upgrades and comprehensive training.

Extensive marketing support: Collateral to help your practice grow with a high return on investment from the very start.
